

## IBS-Fast-Acting Degreaser Blitz

**SKU:** 2050042

For cleaning hard-to-reach machine and metal parts in industrial maintenance and manufacturing. Dissolves greases, oils and resins. Evaporates quickly and residue-free. Ideal for pre-treatment of surfaces before painting or gluing.

Made  
in  
Germany

### Technical advantages

- Removes oil, grease, resin incrustations, silicones, adhesive residues, tar, bitumen, mechanical cleaning effect due to high spray pressure
- BLITZ-quick evaporation
- Residue-free
- Odour - mild (typical for the type)
- No metal corrosion
- Special properties - high yield due to filling with carbonic acid
- residual emptying guaranteed - even when cleaning "overhead"
- industrial spray head with ball valve and extended nozzle - thus low evaporation losses during the spraying process due to precise working, even with gloves on

### Environmental and workplace-related advantages

- Air hazard class - TA-Luft, class: NK, proportion: 95.2%
- Water hazard class - WGK 2 (self-classification) Classification based on the Administrative Regulation on Substances Hazardous to Water (VwVwS) of August 2005

### Approvals

- Approval Deutsche Bahn AG: complies with the qualification conditions of DB AG.

This product is available as a 500ml spray can. The packaging unit (minimum order quantity) is 1 carton of 12 spray cans.

### Technical data

Colour:	clear
Odour:	petrol-like
Silicone-free:	Yes
Propellant gas:	Propane/butane/CO2
Contents:	500 ml
Labelling:	GHS02,GHS09,GHS07
