

IBS-Maintenance Oil MultiFix

SKU: MultiFix

MultiFix is a universally applicable high-performance maintenance oil: after a short reaction time, it loosens joints seized by rust and cleans with temporary corrosion protection. Ideal lubricant for all moving parts.

Application advantages

- Cleaning effect - due to its high penetration capacity MultiFix infiltrates and dissolves rust
- Corrosion protection - high-quality special additives prevent the formation of new corrosion in the long term
- pleasant vanilla scent
- Special properties - after a short exposure time, parts and connections that are stuck due to rust can be loosened without any problems.
- Due to its high creeping capacity, MultiFix is an ideal lubricant for all moving parts.

Advantages

- lubricates even screwed connections, threads, bolts, fittings, valves... that are stuck due to rust after a short application time
- Effective lubricant: for reliable long-term lubrication, protects and preserves all moving parts
- Long-term corrosion protection: leaves a thin oil film, displaces water and moisture, high-quality special additives prevent renewed corrosion in the long term
- perfect cleaning effect: ideal for cleaning oil and grease stains; also suitable for glossy surfaces for finishing
- reduces wear and tear, eliminates squeaking and creaking noises

Application areas

the all-rounder

- Rustlöser
- Corrosion protection
- Lubricant
- Degreaser
- Cleaning & care products

For universal use in all industries and every workshop/maintenance department:

Fittings, threads, nuts, bolts, hinges, tools, pipes, machines, electrical and mechanical precision equipment, measuring tools, keys, weapons

Technical data

Container size:	25 L, Spray
Colour:	clear
Odour:	Vanilla
Temperature range:	-20° to 170° C
Silicone-free:	yes
Propellant gas:	Propane/Butane
Content:	500 ml
Labeling:	GHS08
