rust protection

Cleaning/care/degreasing

Special cleaners:
Cold cleaners & water-based

Part Cleaning

Washing machines

Automated cleaning of large or complex parts through spray application and rotational movement, mostly using water-based cleaning agents.

Brush washing tables

Simple, cost-effective solution for manual cleaning of small to medium parts with a brush and cold cleaner.

Ultrasonic cleaning devices

Uses ultrasonic waves in combination with water-based cleaning solutions, ideal for parts with complex geometry and hard-to-reach areas.
