ESD-APPROVED

Available packaging sizes: 20L jerrycan, 200L drum, 1.000L IBC

# IBS Special Cleaner Series WAS 40\*

## Effective and safe

### WAS 40.100

Cleaning

Intensive deep cleaning for very heavy grease/oil/industrial dirt

### WAS 40.200\*

For general everyday/ environmental and workshop dirt

### WAS 40.300

For heavy grease/oil/industrial and environmental dirt

Wastewater behavior

Demulsifying, oil separator-friendly (Annex 49 AbwV)

Demulsifying, oil separator-friendly (Annex 49 AbwV), ÖNORM B5106

Demulsifying, oil separator-friendly (Annex 49 AbwV)

Labeling according to CLP:

None

None

Suitable floors:

Concrete, asphalt, tiles, ceramic floors, sealed/coated floors, smooth floor surfaces

Usage

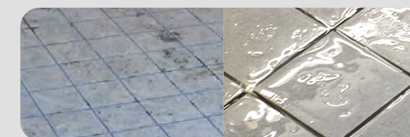

Floor cleaning machine, ride-on machine, scrubber/drier, single-disc machine, high-pressure/vapor/spray devices, brushing, wiping

### Advantages

- ✓ **Cost-saving high-performance concentrate**, best results at low concentration
- ✓ **Does not foam**  
ideal for use in floor cleaning machines
- ✓ **Dries streak-free**
- ✓ **Free of phosphates and silicones**
- ✓ **environmentally safe and user-friendly**  
Surfactants are easily biodegradable (according to OECD criteria), Meets Ö-Norm standards

Before

After

**ESD certified**  
also suitable for ESD floor coverings/ESD protection zones (no negative influence on resistance value)

### Removes the following contaminants

Tire rubber abrasion  
stubborn deposits  
drilling and cutting oils

deposits from cooling lubricant mist, oil and grease residues

dust, environmental and everyday dirt

\*Complies with the guidelines of the Office of the Salzburg State Government

### With Anti-Slip Effect!

Compared to cleaning with conventional agents, the IBS special cleaner does not cause slippery surfaces and ensures grip.

application overview](#)

High-pressure &  
pre-spray cleaner

Floor cleaner

Lubricating/dissolving/  
rust protection

Cleaning/care/degreasing

Special cleaners:  
Cold cleaners & water-based

## Part Cleaning

### Washing machines

Automated cleaning of large or complex parts through spray application and rotational movement, mostly using water-based cleaning agents.

### Brush washing tables

Simple, cost-effective solution for manual cleaning of small to medium parts with a brush and cold cleaner.

### Ultrasonic cleaning devices

Uses ultrasonic waves in combination with water-based cleaning solutions, ideal for parts with complex geometry and hard-to-reach areas.
