

IBS special cleaner WAS 50.100

SKU: 50.100

Neutral, label-free, ready-to-use multi-area cleaner (safety cleaner). Multifunctional surface cleaning agent for the effective cleaning of operating equipment, machines, tools and sensitive surfaces by spraying and wiping. Aluminium compatible and gentle on materials.

Applications:

- Spray cleaning
- Wiping method
- High-pressure cleaning equipment
- Very well suited for pre-spraying

Fields of application:

- Small and large machines
- Machine parts and tools
- Other equipment in all industries
- Sensitive surfaces and workpieces (e.g. painted surfaces, metal surfaces, brass, copper, zinc, aluminium, chrome, nickel, plastics of all kinds)

soiling:

- Oils and greases of all kinds
- Soot, grinding and polishing dust
- Stubborn deposits, resinification
- agglutinated greases

Advantages

- Safety cleaner — not subject to labelling (occupational safety)
- ready for use
- Aluminium compatible and gentle on materials
- demulsifying — therefore suitable for aluminium separators, proven separator friendliness
- meets the requirements of standards B 5104, B 5105 and B 5106 with regard to waste water
- silicate-free
- Environmentally compatible and user-friendly, surfactants readily biodegradable (according to OECD criteria)

Dosage

- ready to use "ready-to-use"

Applications/areas of use

Technical data

Container size:	20 L, 200 L, 1000 L, 6 x 0,5 L
PH value:	11,5
Colour:	green
Smell:	mild - characteristic
Foaming behaviour:	foaming
Application concentration:	ready for use
Operating temperature:	Room temperature
Density:	1.01 g/cm ³
Labeling:	none
