

IBS-Special Cleaner WAS 50.500

SKU: 50.500

Ready-to-use multi-area cleaner (safety cleaner) for industry and commerce - does not require labelling! Versatile for the effective cleaning and care of small and large machines, machine parts, tools and other operating equipment in all industries. Aluminium-compatible and gentle on materials.

Applications:

- Spray cleaning
- Wiping method
- Very well suited for pre-spraying

Fields of application:

- Small and large machines
- machine parts and tools
- Other factory equipment of all branches
- Sensitive surfaces and workpieces (e.g. painted surfaces, metal surfaces, brass, copper, zinc, aluminium, chrome, nickel, plastics of all kinds)

soiling:

- Oils and greases of all kinds
- Soot, grinding and polishing dust
- Stubborn deposits, resinification
- agglutinated greases

Dosage

- ready to use "ready-to-use"

Advantages

- Safety cleaner — not subject to labelling (occupational safety)
- ready for use
- streak-free cleaning
- Aluminium compatible and gentle on materials
- demulsifying — therefore suitable for aluminium separators, proven separator friendliness
- meets the requirements of standards B 5104, B 5105 and B 5106 with regard to waste water
- Environmentally compatible and user-friendly, surfactants readily biodegradable (according to OECD criteria)

Applications/areas of use

Technical data

Container size:	200 L, 1000 L, 6 x 0,5 L, 20 L
PH value:	11,5
Colour:	yellowish
Smell:	mild - characteristic
Foaming behaviour:	foaming
Application concentration:	ready for use
Operating temperature:	Room temperature
Density:	1.05 g/cm ³
Labeling:	none
